Description

This rack is especially suitable for standard ventilation in all types of greenhouses.

The end piece of the rack has no teeth. This enables a security stop as soon as the vent has opened to the maximum. It also stops the rack from getting pushed out.

The rack is precisely fitted to the pinion housing TU 11:22 & 30 and therefore very durable.

The product can be delivered in several lengths.

Height of the teeth: 30 mm

Material: galvanized steel

Ridder Art.-Nr.: 418546
