

Overview

Chain bolt coupling for RW 240/400/600/800 tube 5/4" - bolted

Product number: 32039125

Options

Version

Tube Ø 1 "

Tube Ø 5/4 "

Description

Chain coupling connects motor gearbox chain wheel with a drive shaft and provides higher flexibility of the driving system.

The coupling is equipped with a pre punched receptacle for the drive shaft, in which it can be easily inserted. The mounter benefits from an easier and quicker mounting compared to the usual welding.

The duplex chain of this coupling enables the drive shaft to move in the line. Such a structure creates the higher flexibility of this drive system during dynamic external influences and during movements within the greenhouse construction.
