Description

This grooved cable drum ensures friction free, well-ordered winding and therefore a smooth movement of driving cable in shading systems .

Created at 19.04.2025.

* Our offers are directed exclusively to companies. We do not conclude contracts with consumers. All prices excl. VAT plus shipping costs and possible delivery charges, if not stated otherwise.

Two-halves model of the drum makes it possible to fasten it onto drive shaft subsequently. The two halves are connected quick and easy with a hose clamp and then installed onto the drive shaft with a headless screw.

The cable drum is made of high-impact resistant plastic, that is friendly to cables and therefore increases their durability.

Can be used with cords with a diameter up to 3 mm

For 34 mm drive shafts

Capacity of cable drum: up to 5,70 m
